

Assignment 2: Report Writing: Litter

15 points

Due date: 11 January 2013

Litter is waste that people unlawfully dispose of out of doors. It can be packaging or other unwanted items. Litter can be vandalism, carelessness, or inadvertence. Litter is a form of visual pollution. It can harm health, safety, and welfare. It adversely affects wildlife and environmental quality (<http://en.wikipedia.org/wiki/Litter>).

Using a community you know well, evaluate the litter problem in that community. You should survey a range of occupations and age groups for their opinions on the extent of the problem and the causes.

Terms of reference

- a) to analyse and evaluate the extend of litter problem in a community of your choice.;
